

SELF ADHESIVE WATERPROOF TAPE

Self-adhesive tape, reinforced with non-woven for sealing under ceramic tiles in wet rooms

Properties:

Fleece coated, permanently elastic butyl sealing tape with a high adhesive strength and tear resistance. The fleece coating allows an excellent combination with common sealants as polymer dispersions and mineral flexible sealing slurries and reaction resins.

Applications:

For use in corners and to cover joints in wet rooms.

Technical specifications:

Thickness approx.:	0.8 mm
Width:	100 mm
Working temperature:	+5°C

Preparation of the substrate:

This will depend on the nature and form of the substrate and the sealing system to be used. A suitable primer should be first applied.

Use:

Cut the sealing tape to the required length. Remove the first half of the back silicone strip and press firmly to the intended surface. Then remove the second silicon strip of the sealing tape and stick as far as possible with loop formation at the surface. The sealing strip must be positioned correctly at the first try. A correction is possible conditionally and depends on the substrate. For safety reasons, the sealing strip must be replaced by a new section.

Consumption:

When calculating consumption, allow for a tape overlap of at least 5 cm.

Information on further processing:

The tape ensures excellent compatibility and good adhesion with polymer dispersions, flexible mineral sealing slurries and reaction resins. However, it is advisable to conduct a compatibility test before applying other products.

Cleaning of tools and equipment:

Tools and soiled areas should be cleaned immediately after use with water.

Storage:

Can be stored in the original sealed packaging for up to 24 months in a cool, dry environment.

Supplied as

10 m roll 400 cartons / pallet

Safety information:

NoMorePly Waterproof Membrane has not been classified as hazardous material according to COSHH

Disposal:

Can be disposed of as construction waste. Non recyclable. For further information see also Material Safety Data Sheet (MSDS).
